Capex Monitoring

P&E Monitoring

The screenshot displays a Microsoft Power BI dashboard titled "IE Dashboard". The dashboard is organized into several sections:

- P&E**: Includes filters for Category (All), Project Name (All), Assembly (All), Equipment Category (All), Supplier (All), and Owner.
- Project Overview**
- Capex**
- Supplier**
- IE Dashboard**: Contains six cards with data visualizations:
 - Σ Qty by Assembly**: Bar chart showing quantity by assembly type. Top items include Main Line, Mainbody Assy, Mainline, Heater Assembly, Cyclic Assy, Anti Brdg Mot..., Mini Motor Head, ANTI-TANGLE ..., Mainline Zone A, X768 Motorhead, Subframe Assy, BPA, Motor Bucket, Amp, X68 Anti-Tangle..., Drive Assembly.
 - Σ Equipment Sourcing**: Bar chart showing quantity by sourcing category. Categories include New, Transfer, Repeat Order, Modification, and Refresh.
 - Equipment Readiness**: Bar chart comparing Target (blue) and Actual (green) values for Fabrication, Shipping Phase, and Installation. Values range from 24 to 27.
 - Σ Qty by Equipment Category**: Bar chart showing quantity by equipment category. Categories include Jigs and Fixtures, Tester, Machine, Jigs & Fixtures, Conveyor, Automation, CTO Fixtures, Cobot, Logistic Cost, and Onsite Support.
 - Σ Qty by Supplier**: Bar chart showing quantity by supplier. Suppliers listed include Guang Dong N., Heanton's Inter., FLEXTRONICS ..., H.I.P TECHNOL., Bezon Perfor..., KunShan Mazy ..., BOOSTER ELECT., E.CEN Precision..., FLEXTRONICS ..., ALIATECH Technol., BSI Technolog..., SHENZHEN YUT..., FLEXTRONICS S., Adenaur Soluti..., Hot Air Technol., INNOMIG PHIL...
 - Project Readiness**: Bar chart comparing Target (blue) and Actual (green) values for EVT, DVT, and SOP phases. Values range from 22 to 35.

At the bottom left, there is a "Go back" button. The top navigation bar includes File, Share, Export, and other standard application icons.
